Ocean City Home Bank Always Banks on Union Labor

BACNJ adds value to the construction process

Founded in 1887, Ocean City Home Bank is the area's leading financial banking institution in both performance and community involvement. We currently operate ten full-service branches in Atlantic and Cape May Counties and continue to expand while remaining true to our original vision of exceptional products and services.

In 2009, Ocean City Home Bank built and opened a branch banking office at 317 South Pitney Road in Galloway Township, New Jersey. We chose ICON Construction, a Union contractor, as our construction partner for this project.

Ocean City Home Bank has a long history of using Union labor including the New Jersey Union of Bricklayers. In addition to our Galloway office, Union contractors have completed work on our Ocean City and Linwood branches, which are both two story buildings with brick facades, as well as stonework on our Ventnor, Egg Harbor Township and Mays Landing branch locations.

The Union contractors we work with enjoy excellent reputations for skilled talent, quality installations and safe work environments. Most importantly, they deliver consistent results from one project to the next. That's important to Ocean City Home Bank, because each branch office is an extension of our company's brand image. Knowing what to expect from our construction team keeps our projects running smoothly. Proven results are important to any successful business. Time and time again, Union labor has delivered the workmanship and attention to detail that we expect of seasoned professionals.

Why We Benefit From Union Labor:

- Professional skills and job knowledge
- A degree of consistency that only Union labor can provide
- A safer work environment

"Ocean City Home Bank is the 'Bank People Trust' and the exterior appearance of our branch offices is very important. It should project safety and soundness and professionalism. I think that the exterior stonework is not just an ornamental flair, but also helps us project our image."

Steven E. Brady
President and CEO
